

# PORTHUS<sub>B</sub>

Early, high yielding, fusarium tolerance

## Advantages:

- Very high yield combined with mid-early maturity and high fusarium tolerance
- Robust leaf and ear health with plus against yellow rust
- Vigorous density type with high ability of compensation

## Cultivation:

Suitable for all sowing- and harvest dates, all previous crops and all climatical regions  
In regions with strong winter no early sowing

## Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

### Plant Development

### Vitality

Winter hardiness (5) medium

Drought resistance (7) high

### Plant Health

### Quality
