

# YVONNE 2-row

Feed barley with best health and lodging tolerance

### Advantages:

- Maritime variety type with high yield untreated and treated
- High above average in all terms all kind of disease tolerances, especially good in brown rust
- Best lodging tolerance (no ear break, no stem break)

### Cultivation:

Grow on locations with slow ripening conditions

No sowing in conditions with strong frost (without expected snow cover)

Avoid too early sowing in regions with high frost risk

### Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

#### Plant Development
